

Herby we confirm that the Luxcontrol exhaust systems (without catalytic converter), which have been approved according to ECE/R42C component type approval as an original exhaust system and which are installed on the vehicles stated on the related Type-Approval Certificate, comply with the requirements of the EC-Directive 97/24 of the Council 1997, within the limits of polluting emissions.

This statement may be issued since:

- On the motorcycles provided with catalytic converter in the original certificate, the function is not affected considering that the catalytic converter is not replaced when the Luxcontrol exhaust system is installed.
- Some models of Luxcontrol exhaust systems meet the pollution limits at present set forth by the EC regulations, with no need for further adjustment; for this reason, the use of a Luxcontrol exhaust system, which can provide the EC Certificate, and which is not provided with catalytic converter does not necessarily see action on such vehicles, the efficiency of the system as far as the abatement of pollutants is concerned.

EC DIRECTIVE
97/24

September 20th, 2012

STATEMENT

We confirm, that the following replacement silencer type 8725, produced by SITO Gruppo Industriale S.p.A. (S.G.I.), is complying with

- the EC-Directive 97/24/EC Chapter 9 regarding permissible sound level and exhaust system

An EC type approval number has been granted by the Luxembourgian Ministry for Sustainable Development and Infrastructure, department of Transport, for the following version of the above mentioned catalytic converter type:

Silencer Version	Drawing No.	Type approval mark	Vehicle type	Vehicle Model
8724	8724	SGI  10105 	DE07 Var.I Vers.I	YAMAHA WR 125 R i.e.
8724	8724	SGI  10105 	DE07 Var.II Vers.I	YAMAHA WR 125 X i.e.

We confirm that the installation of replacement silencer type 8725 on above listed vehicle(s) does not affect the performance of the original equipment catalytic converter which remains unchanged and still meets 97/24/EC Chapter 5 Directive requirements as per its last approval amendment (2005/30/EC Directive).

Gilles AST
Expert Technique

Con la presente si dichiara che gli accessori ESOYmax approvati da certificazione (certificati) che hanno ottenuto l'omologazione europea, installati sui veicoli citati nel corrispondente certificato di omologazione, soddisferanno pienamente i requisiti della direttiva 97/24/CE e della 2005/30/CE, per tutti gli aspetti di competenza della certificazione inquirante.

Questo può essere attestato in quanto

- Poiché esiste una buona e necessaria collaborazione tra produttori di veicoli e silenziosità non viene alterata nel momento in cui viene montato lo scappo ESOYmax. Se non funzionerà non viene segnalato.
- A tutti i modelli verificati, i limiti acustici sono rispettati dalle norme in vigore. L'acquisto del convertitore catalitico, per tale ragione funziona da una scarica. L'efficienza e l'aspetto di colore non cambiano e si ottiene l'omologazione europea, in questo modo non viene influenzata nell'abbassamento degli inquinanti.

Escluso: Accessori.
